

Rallye des Clubs

Circuit des Remparts Saturday 20th September 2025

Angouleme

On behalf of the Jaguar Enthusiasts Club Sud Ouest France Aquitaine (JECSOFA) and the Interesting Car and Bike Club (ICBC), I will once again be entering a team of cars (and owners!) into the 2025 event. Last year was very enjoyable along with a very sociable lunch in Montmoreau.

Being an official member of either club is not necessary as this is an allcomers event and therefore is open to all. However, in the interests of manageability on the day, I am suggesting a maximum of twenty-five cars is appropriate for our team so please enter as soon as possible. There is a lot of running around with plaques etc before the start so any help on the day will be gratefully accepted.

Attached you will find an entry form with various choices. Please email the form to sharpie0061@gmail.com and make your payment by bank transfer to the JECSOFA account (Bank RIB Attached). Alternatively, you can post it to me along with your payment by cheque (payable to JECSOFA) to 18 Route du Chateau, Les Justices, 16320, Edon.

On the separate sheet, please also indicate the names of the driver/owner, make and model of car along with year and registration number. It would also be very helpful to include a mobile number.

Whatever your choices are, everything will be given to me just prior to the event and I will hand it out on the morning of the start.

The departure point has yet to be confirmed (most likely Champniers) and the route is kept secret until the event. On the day you will receive a full pack with road book, rallye plaque etc.

Once I get a bit of insiders' information on the route this year, I will hopefully be able to offer an option of taking lunch at a local restaurant as an alternative to a picnic. Either option is fine.

I would be grateful if you can get your entry and payment to me by Monday 9th June at the latest as it is necessary for me to collate everything and enter the team by the end of June at the latest.

It would be fantastic to see our team enter a collection of eclectic and interesting cars which will only add to this car lovers' event.

Looking forward to welcoming as many of you as possible on the day.
